

UPDATE - PRINTING COLLECTIVE AGREEMENTS

The newly bargained Paladin Collective Agreement has been printed and mailed out to all employees, if you didn't get one by now, it most likely means we do not have your correct mailing address and you should contact us to provide us with your new address so we can mail you out a copy, and so you will get future newsletters.

The Securitas and Garda Collective Agreements were sent to the printer yesterday. We will follow the same process we did with Paladin employees so that once the booklets are printed, they will be mailed out to all employees directly from the printing house.

Please ensure that we have your most recent mailing addresses on file so that you will get a copy of your CBA, otherwise you will have to wait until we receive the additional copies before we can mail one out to you.

REMINDER - if the local or benefit plan does not have your correct mailing address you will not get your CBA or the T4A in February that you MUST claim on your income tax and which could result in a penalty with Revenue Canada if you don't. If you fail to provide the benefit plan with your updated mailing address, or us so we can forward it to them, any penalty that you might incur will be solely your responsibility, The local cannot be held responsible for any penalty you might receive. This T4A is for the life insurance portion of your benefits and you must claim it if you were in benefits (even partially) in 2020.
